SABALA, "El Rey Del Piano", 1997, 200 x 100cm

This summer, Galerie Kamil highlights two artists from Spain: SABALA, an emerging Barcelona painter whose human portraits are colorful in all senses of the word, and prominent Spanish abstractionist Fernando Martinez Garcia (F.M.G.), who works in the style of his late teacher Joan Miro.

Galerie Kamil also presents the work of Nall, a former apprentice of surrealist master Salvador Dali, the busty bronze musical instruments and toros of French sculptor Richard Mas, as well as the work of painters Tessarolo, Rachelle Oatman, Pino Maggi, Any Criss and Roger von Wezel.

New to the U.S., French master ceramicist Alain Girel has been featured in over 20 public and museum exhibitions worldwide including the prestigious Musée des Arts décoratifs in Paris and the Musée national de la céramique in Sevres, France. Girel's baroque and kitch art has captured international attention with collectors such as Princess Caroline of Monaco, former French president François Mitterrand and American pop legend Paul Simon. Among his many accomplishments, it is notable that Girel is the creator of the Daum trophy.
